SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the Employment First State Leadership Mentoring Program Community of Practice Evaluation information collection. This information collection is designed to gauge, via a Web-based survey, the effectiveness of ODEP efforts to promote the implementation of Employment First (EF) policies and practices for persons with disabilities and to determine how well remote training and online forums facilitate the implementation of EF activities in each of the thirty participating states. Findings from this census of participating community of practice states also will provide the DOL with important information for strategic planning, program replication, and development of disability employment policies, approaches, and practices.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the Federal Register on April 30, 2014 (79 FR 24453).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within 30 days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201310-1230-001. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
  - Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
  - Enhance the quality, utility, and clarity of the information to be collected;
